WHEN & WHERE

June 6–7, 2026

Cupertino, CA

OUR MISSION

We bring together Cupertino's best builders for 24 hours of shipping real products.

Meals, workshops, mentors, and \$30K+ in prizes — all 100% free.

WHY WE'RE UNIQUE

Fire Hacks is hosted by CodeStarters — the student-led initiative teaching CS and AI across Cupertino. We give 200–300 high schoolers 24 uninterrupted hours to build real software products, with AI/ML workshops, around-the-clock mentors, and full catering. Your brand gets 24 hours of continuous visibility with the Bay Area's most ambitious young engineers.

Frequently Asked Questions

Why should I sponsor Fire Hacks?

You'll gain direct access to 200–300 of the Bay Area's top high school engineers for recruitment and brand visibility. Supporting Fire Hacks means empowering the next generation of builders — students who are already shipping real products and founding companies.

How can I help?

Beyond financial sponsorship, we welcome mentors, workshop hosts, and judges to engage directly with students. You can also contribute API credits, software licenses, a venue, or prizes to fuel innovation across web, mobile, and AI projects.

Where will my money go?

Your contributions directly fund meals, venue, and event logistics for 200–300 students to build for free. CodeStarters is fiscally sponsored by a 501(c)(3) non-profit — all sponsorships are fully tax-deductible.

Ready to Partner?

Join us in shaping the next generation of tech. We're happy to discuss custom packages to meet your recruiting or brand goals.
